CONSENT TO SESSION, Please read carefully before signing

I understand that the massage/bodywork your dog receives is provided for the basic purpose of relaxation, stress reduction and relief of muscular tension.

I further understand that massage/bodywork is not to be a substitute for medical examination, diagnosis or treatment and that I should seek the appropriate medical professional for any physical or medical ailment that I am aware of.

I understand that canine bodyworkers are not qualified to perform spinal or skeletal adjustments, diagnose, prescribe or treat any physical or medical illness, and that nothing in the course of the session(s) should be construed as such.

Because massage/bodywork is contraindicated (should not be done) under certain medical conditions, I have truthfully stated all known medical conditions and answered all questions honestly and completely. I agree to keep the practitioner updated as to any changes in my dog's medical profile and understand that there is to be no liability on the practitioner's part should I forget to do so.
